ADDITIONAL ITEMS REQUIRED:

Installation Wire - Installation wire is required to connect the charging system and to network the energizers, scoreboards and computer.
Charge Socket Housing - Charge sockets need to be mounted into an electrical raceway or plastic housing.

ADDITIONAL ITEMS SUGGESTED:

Arena Walls & Barrels / Obstacles - Walls in an arena should be painted black with Ultra Violet paint. Some locations have an artist come in and paint murals in the arena with the UV paint. **Racks / Hooks** - to hang vest and phasers on. **Television monitors** - for score viewing. **Smoke/Haze Machine** - The lasers require a small amount of special effects fog/smoke in order to enhance the beams. The more smoke the better the visual effect will be. **Arena Music** - Laser Tag is typically played to high energy / techno music.
